ELECTRICAL & COMPUTER ENGINEERING | DATA SCIENCE FOUNDATIONS

Cannon Beach, OR • Xarrose45@gmail.com

SUMMARY

Electrical and Computer Engineering student at Oregon State University focused on embedded systems and computer architecture, while building a foundation in programming and data science. Brings experience in research, financial administration, tutoring, and collaborative project leadership, with strengths in analytical thinking, communication, organization, and learning unfamiliar systems.

EDUCATION

B.S. in Electrical and Computer Engineering | Oregon State University *Expected Jun 2030*

Focus: Embedded Systems and Computer Architecture. **Current coursework:** Engineering 110/115, Careers in Data Science, Honors Thesis course, Psychology 201Z.

Additional coursework: Writing 121Z and Communication 111 (dual enrollment); Statistics (high school).

SKILLS

Tools & administration: Google Sheets, spreadsheet-based budgeting, financial/office documentation, scheduling tools, D&D Beyond.

Developing technical skills: Python, SQL, R, Git/GitHub, data visualization, and AI/ML concepts; programming experience is introductory, including brief exposure through math coursework.

Transferable skills: Research and evidence evaluation, quantitative reasoning, individualized instruction, event coordination, organization, communication, and teamwork.

EXPERIENCE & PROJECTS

Senior Class Treasurer | Seaside High School *2025–2026*

- Managed class financial responsibilities and supported meetings and school-event planning, using budgeting documents and spreadsheets to help organize funds and activities.
- Balanced voluntary leadership duties with school commitments, communicating with classmates and staff and contributing to event coordination.

Main Office Assistant | Seaside High School *2025–2026*

- Supported daily office operations five days a week, handling incoming calls, paperwork, scheduling, records, and requests while assisting staff and students.
- Used office systems and administrative tools to keep information organized and respond professionally to competing needs in a busy school environment.

Senior Research Paper: Gun Control Policy | Seaside High School *3-month project*

- Combined published research, statistical information, and policy comparison with consultation involving city council and law-enforcement contacts in the Cannon Beach and Seaside area.
- Organized findings into a formal paper and presented to the senior class and other attendees, including officials, practicing source evaluation and evidence-based communication.

Pacifica Project: Community Outreach & Arts Fundraising | High school community-service project

- Contributed about 50 service hours to support the school drama and arts department; helped coordinate a theatre showing with about 20 students and generated more than $2,000 in revenue.
- Took a leadership role in project coordination, creative development of videos, and arranging interviews and collaboration to raise awareness and community support.

Volunteer Math Tutor | Independent volunteer *High school*

- Tutored students with varied learning needs for about 30–45 minutes most days, adapting explanations and practice plans from elementary algebra through trigonometry and pre-calculus.
- Helped a student rebuild confidence through a structured learning plan; the student earned an A on the Algebra II final and completed a remaining math requirement.

Dungeons & Dragons Campaign Organizer / Dungeon Master | Personal and collaborative project *2 years*

- Designed and led an ongoing campaign through in-person and online weekday and weekend sessions, coordinating players and guiding the project to completion before graduation.
- Used D&D Beyond, Google Sheets, guidebooks, and planning materials to organize campaign information and schedules, adapting session plans as the group progressed.

Food Service Team Member (Busser, Backup Cook, Assistant Host) | Cannon Beach Conference Center *2022–2024*

- Supported dining-room, hosting, and kitchen operations, coordinating with guests, coworkers, and supervisors to keep service moving during fast-paced shifts.
- Responded to customer needs while balancing priorities, strengthening teamwork, communication, organization, and dependability.
